## PROFILE

I am a software engineering student in my final year of studies, and i am a member/volunteer in certain clubs in the university. I'm truly passionate about software development since i was in high school. This passion carried me through my education at the university to develop myself and gain a more knowledge in software engineering field with some fundamentals in Artificial intelligence and Machine Learning. I was able to acquire a solid foundation during my three years of studies in development and software engineering, skills in which I particularly excelled during my studies. In addition, with internships in the field of web development.
